Change of ceramic capacitor notice

Thank you very much for choosing Isahaya product and we appreciate your business.

This letter serves as formal notification of changing mounted capacitors of following Part.

It has been difficult to obtain the ceramic capacitors worldwide, and it has become to the situation that we are endanger to continue our production.

As a measure to continue production, we would like to make a change to relatively obtainable small-sized ceramic capacitor.

We appreciate your understanding and kind support.

1. Product Part Number

VLA517-01R

2. Changes-table

Spec	Part Number	Capacitor size	Substrate material	Internal circuit	External dimensions	marking	Electric characteristic spec value reliability level
Current	VLA517-01R	1608,2012	No difference	No difference	No difference	Part number change	No difference
After change	VLA517-11R	1005					

1. 电路板上陶瓷电容尺寸改变, 由1608、2012变更为1005, 电参数没有变化。
2. 变更后, 型号后缀改为-11R。

3. Charactristic comparison

Since the circuit configuration and parts placement are almost the same as the current product, there is no difference in the electrical characteristic specification value.

The reliability level is also the same.

4. Others

Please let us know if you would like samples. We will provide up to 6 pcs for free of charge.

5. Schedule

The last day to accept orders for current product (VLA517-01R): November 30th, 2018

The last day of production of the current product (VLA517-01R): End of March 2019

The starting day to accept new product (VLA517-11R): December 1st, 2018

Please note if we do not hear from you by November 30th, 2018, we deem your acceptance of the above.
